## KLIP STRING DESCRIPTION AND COMPARISON CHART

### PRO NATURAL GUT

**Armour Pro:** A natural gut string with a unique white coating. Thanks to the coating this gut is very easy to string, offers improved durability and plays with a firm, control oriented response.

**Legend:** Highest grade natural gut with unbeatable performance. 100% Australian. Available in 15g(140 mm), 15L(135mm), 16g(130mm), 17g(125mm). Comparison: Babolat VS gut

### PRO DOUBLES (Combination/Hybrid strings)

**Lightning:** 16g(130mm) Legend Natural Gut with Excellerator 16g (129mm) Multifiber. The ultimate in playability with optimal shock absorption. Comparison: No similar string

**X-Plosive:** Combines X-Plosive power with unmatched durability through the combination Legend and K-Boom. No wonder X-Plosive has the #1 highest power rating by the USRSA.

**Screamer:** 16g(130mm) Legend Natural Gut and 16g(132mm) Scorchers Double – Wrap Synthetic. Superior playability with crisper power and more ball control. Comparison: No similar string

**Detonator:** Combine the tension hold and power of our Advanced Co-Polymer K-Boom with the soft feel of our multifilament Excellerator, and you get long lasting playability, that is easy on the arm and wallet.

**Blast:** 16g or 17Lg (123mm) Hardcore Polyester with 16g or 17g(125mm) soft compound synthetic gut. A unique combination of power and control. Comparison: Prince Let R Rip

### PRO SINGLES

**Venom:** Our soft gut-like multifilament with a “power coil” wrap for a deeper ball pocket, vicious bite and added power.

**Excellerator:** Available in 15L(135mm), 16g(129mm) and 17g(125mm). A multifilament synthetic with 30% more fiber than other multifibers. A unique way of bonding the filaments with less glue providing more of a gut-like feel. Comparison: Wilson NXT, Technifibre NRG, Babolat Excel Premium

**Optic Nerve:** A technologically advanced multi-polymer for awesome playability, tremendous spin, and long lasting durability.

**K-Boom:** Combines great durability with the feel of a multifilament string. Comparison: Luxilon ALU Power

**Scorchers:** A double wrap synthetic with a pearlized coating provided in a thicker 16g(132mm) and 17g(127mm). Helps with increasing ball speed for added power. Available in Brilliant Gold, White Reflection, and Black. Comparison: Gamma TNT Pro Plus, Babolat Powergy, Prince Sweet Perfection, Wilson Sensation

**Hardcore:** An incredibly lively playing polyester in a 16Lg(127mm) and 17Lg(123mm) for a fantastic playing durability string, with less harshness Vs. other polyester’s. Comparison: Kirschbaum Super Smash, Wilson PolyLast, Babolat Polymono

**Synthetic Gut:** An all-around performance string with the perfect balance of playability and added durability. The popular synthetic gut with a DuraGuard texture for added spin and durability. Comparison: Prince synthetic Gut with Duraflex, Gamma Synthetic Gut with Wearguard

**Kicker:** A classic single wrap synthetic gut allowing superior touch for enhanced control. 16g(130mm), and 17g (125mm). Comparison: Prince Synthetic Gut Original, Gosen Micro 16, Wilson Syn Gut Extreme
